

Dear Trip Participant:

Thank you for choosing the Earth River Expeditions Lakes of Patagonia Expedition. Every effort will be made to make your trip a safe and enjoyable experience. The following information will help you prepare for your trip.

The Lakes of Patagonia Expeditions trip takes place during our winter and passengers should make sure that they remain in very good physical condition. This trip is an “active” expedition as you will be paddling sea kayaks and hiking for extended periods of time.

Enclosed, in this hidden link section, you will find information on equipment, weather, travel and other necessary information. Please read the information carefully. If you have any further questions please contact our office.

Again thank you for traveling with Earth River and we look forward to seeing you in Chile.

Sincerely:

Eric Hertz
President
